MR. YOUNG'S "RE-ELECTION."

At this late day Congressman H. cality, by the state board of canvas, begin to fig. peared as "Sheldon William J. Macthe fact that the Ontonagon county goods. Votera whose ballots were rejected intended to vote for William J Mac-Donald and marked their bullets are cordingly, Mr. MacDonald is in Chicase in attendance at the Progressive decision will be protested.

So many mistakes were made in the recent general election that it seems to be up to voters at future elections to carefully scan their ballots and sec that any defects are remedied before the ballists are cast. We have had evidence enough of late that election boards av. t infallible.

Mr. A claused was fairly elected. fouch on a rechnicality, unless the state tourd of canvassers is overtuled. According to Lansing advices the canvassers based their ruling on a supreme court decision on a similar question

Mr. Young, of course, is entirely blameless. He is not in any way responsible for the action of the board of canvariers. We have heard some people declare that he should decline re-election tendered in this way, but such course would only further complicate matters. It likely would not but simply create a vacancy which would have to be filled by special election. The contest may eventually get into the House of Representatives itself; for that is the court of last resort on its own membership.

Tair play and strictly honest dealing entitle Mr. MacDonnid to the vice tory. Technicality should not be em.

BRYAN, SECRETARY OF STATE.

According to Norman E. Mack, exfurrman of the Democratic nations committee, a man high in the counsel conference, but his friends state the of the party, William J. Bryan will be the new secretary of state. Mr Mack says, editorially, in the December number of his National Monthly

"President-designate Wilson expects o have an opportunity during his star in Bermuda to go over in a tentative way the filling of his cabinet positions This is the first and most important work of a new president, and it would be surprising if Governor Wilson did There can be no doubt of this. He not give serious thought to the subject while enjoying himself in the southern islands. It is possible that he may not arrive at a conclusion, but the assumption seems to be general and well-founded that the new president will tender the Secretary of State portfolio to William J. Bryan The mantle could fall on no worthler American citizen: a peace envoy in an era of peace, a thoroughly patriotic American citizen, Mr. Bryan would bring rare ability, wide experience and nobility of character to the post so honorably filled by Jefferson Adams return the election to Mr. MacDonald, Clay, Calhoun, Webster, Marcy, Everett and Seward, by Blaine and Bayard, by Olney and by Hay, Mr. Bryan, we say, cannot fail to accept the call which the country assumes is to come to him from the new president and the party would glory in his appoint-

When the plan was put into effect it attracted in newspapers throughout the country and there was much unfavorable as well as favorable criticism. The county board is now convinced that drunkenness has not been decreased to any extent by the special officer's work.

Sunlight grows the hops, but spoils the brew.

Light starts decay even in pure beer. Dark glass give: best protection against light.

In England and Germany the brewers won't use light glass bottles.

"Beer should not be exposed to the light, especially direct sunlight, as it will thereby be detrimentally affected, the light having an influence upon the albuminoids in the beer, causing the latter to become bazy,"

says no less a person than Philip Dreesbach, the eminent German expert and scientist in the Wahl-Henius Institute of Fermentology.

We have adopted every idea, every invention that could make for the purity of Schlitz beer.

Our beer was first brewed in a hut. Now our agencies dot the earth. Our output exceeds a million barrels a year.
